## Council offers compromise

Although no agreement was reached during the second volatile and volatile session on the Upland-Ontario sewer problem Monday afternoon, the Upland City Council in their regular meeting that same evening moved to accept the agreement between Ontario, Upland and the Chino Basin Water Company with one provision.

Drafted by Donald Maroney, city attorney, and presented by Councilman Harold Ballin, the compromise provision reads:

"That in the event a regional

organization or plan including the cities of Upland and Ontario is established in the future and desires to take over the sewage processing function, the agreement will terminate and CBMWD will sell such organization, the plant facilities and land unless CBMWD determines it prefers a vote of the people.

"Such district-wide vote will then determine whether the agreement shall remain as is or whether it shall terminate and the CBMWD is not in agreement with turning over the sewer, plants, etc., to that body, the CBMWD agree to submit to a vote of the electorate and abide by the decision of the electorate. 'If they would, so would we,' (the Upland Council), Ballin said.

event of such sale, the plant facilities shall be sold at historical cost, less depreciation, the land at fair market value, and adequate provision made to protect any bonded indebtedness or other obligation."

In other words, according to Ballin, the Upland Council will go along with the agreement between Upland, Ontario and the CBMWD if, should a future regional body be formed and the CBMWD is not in agreement with turning over the sewer, plants, etc., to that body, the CBMWD agree to submit to a vote of the electorate and abide by the decision of the electorate. 'If they would, so would we,' (the Upland Council), Ballin said.

Councilman John McCarthy was delegated to take Upland's proposal to the Ontario City Council Tuesday evening because, according to Ballin, Mc-

Carthy was 'the only one who has not come out strongly for or against' the proposals.

The two meetings took place back-to-back, with Ontario and Upland councilmen sitting down at 5 p.m. Monday evening to attempt to iron out their differences in viewpoint. Volatile onlookers were representatives from the CBMWD including Carl Masingale, president, and Andrew Schlane, manager of the district.

The Upland Council meeting, during which the sewer problem was discussed and the compromise proposed, followed at 7 p.m. One Ontario councilman attended this session. There were no representatives there from CBMWD although Mayor George Gibson of Upland had said the matter would be discussed at the later session.

## A sad promotion for a sentimentalist

BY BARBARA TARSHEES  
Cal Poly Intern

"Hey Tony, hear you're leavin' us," shouts a youngster on the playground of Upland Junior High School. Tony sighs a "Yes, I got a new job" to the little friend.

Tony is Tony Mendoza and he was appointed Jan. 12 by the Upland School District to become the new District Supervisor of Buildings and Grounds. The job was left vacant on the retirement Dec. 31, 1970 of Wayne Hendrick.

Mendoza begins his new job this week. It will make him leave Upland Junior High where he has been head custodian for seven years. He earned the new job after a series of oral and written tests with a field of seven other applicants.

He is especially fond of Upland Junior High as he attended school there as a boy. Because of his parents' large family, 14

children, he never went further. He has nothing but praise for the students and teachers at Upland. "The kids are a great group of youngsters," he said. Vandalism isn't much of a problem in the district, he says. He added, "We have some of the finest looking schools here."

His job will entail supervision of nine elementary and two junior high schools and the direction of 33 to 35 people.

Mendoza lives in Ontario with his wife Jesse. One of his five sons, Ernest, is the outgoing student body president of Chaffey High School.

Another son is married and a third is in the Service. He has one other son and a daughter.

When he has time for his hobby of singing, he performs at local schools and groups with two other men who form "Los Tres Caballeros." His two companions work at Pioneer and Sycamore schools.

### Tony Mendoza

Tony Mendoza is a sentimentalist. He was recently named to a vacant Upland School District post of District Supervisor of Building and Grounds. So what's he so sad about? He's going to miss the kids at his old school, Upland Junior High where he was head custodian for seven years. He watched them play football during lunch break on one of his last days before taking the position.

## Out of my mind

### Typewriter talk

BY JENNY KIRKPATRICK

Typewriter talk  
Me: "Good morning, typewriter, how's the new year going?"

Typewriter: A new year's a new year, right?  
Me: "Wrong. It's full of possibilities and resolutions and new beginnings and --"

Typewriter: So all right already. I'm not in the mood for philosophies.

Me: "Okay. Well then, did you make any new year resolutions?"

Typewriter: What's that? You know the more I associate with people, the more I'm glad I am a machine.

Me: "Resolutions are like you vow that this year you will do better than last year -- like to quit smoking, or go on a diet, or to be successful, or what-ever."

Typewriter: What if you don't do any of those things in the first place? What's to give up?

Me: "Boy, you are impossible today. Okay, at least you can try and help me. Anyway, let's dream up some resolutions that the towns we serve can do this year."

Typewriter: Okay, how about? Resolved that Montclair will do something about their "new concept" post office. Or mainly, go back to the "old concept."

Me: "Good idea. Their parking lot is a traffic hazard."

Typewriter: Well, then there is Cucamonga. They should do something about forming a city beautification committee. Being in the county is no excuse for having a "dirtyface."

Me: "And, also do something about North Town."

Typewriter: Upland's council should resolve to

have better communications with surrounding cities and the county every day and not just in time of crises.

Me: "And some of their officials who serve on various committees should attend meetings assigned to them and report back to the council themselves."

Typewriter: San Dimas should resolve to move ahead with its "Early American" theme in the downtown area.

Me: "They can now, because the parking district has been formed after five years."

Typewriter: La Verne should resolve to continue its fight with Metropolitan Water District on the unused portion of the MWD's acquisition of the land north of La Verne.

Me: "If the land is going to be tax free, to MWD, the unused portion should be used for a park."

A newborn foal which came into the world in a stable on Christmas Day was a momentary star in the Sunday, January 10, Arabian horse shows at California State Polytechnic College, Kellogg-Voorhis, Pomona.

The little unnamed colt, born December 25 did no more than circle the arena as he followed his mother, Arabian mare Couronata, around the ring. Traditionally the Cal Poly, Pomona Kellogg stables include the appearance of one or two of its newest-born foals in its weekly shows, from the beginning of the foaling season in January until the last young animal is born about the first of June. This season the Cal Poly stable had 13 pregnant mares.

The Christmas Day newcomer, the first of the season's arrivals - a bit earlier than expected - technically became a year old January 1. In horse circles, foals born at any time during the preceding year, automatically advance a year in age on New Year's Day. According to horse parlance, a foal is a foal until he (a colt) or she (a filly) is weaned, usually about six months. The young animal is then a weanling until it becomes a yearling.

Unlike humans and some other animal newborns, foals often remain unnamed up until they are six months old. This allows the namers to take into consideration unusual or identifying features of the young horse as it begins to develop color, markings, personality or other individualities. Needless to say, several name suggestions have come from stable friends which relate to the birthday of the recently-born foal. According to Norman Dunn, coordinator of the college's horse department and the person usually responsible for naming the newborns, some of the names under consideration are Kello-Noel; Sakit - Lel (Arabic for Silent Night); Fusul Salam (Arabic for season's greetings); and Santo.

In addition to little no-name, highlights of the Sunday shows include the parade of horse and riders in Arabic costume; the working-cow horse act, in which the horse moves cattle around the ring; and the trick horse act, in which the star horse does such feats as pick up a 50-cent piece and put it in a cash register.

Cal Poly, Pomona's Kellogg Arabian stables have been giving Sunday horse shows since 1927. This year the season extends from October to May. Shows are twice on Sunday, at 2 and 3:30 p.m. Admission is 25 cents for children and 75 cents for adults.

Ever since the ancient Chinese invented gunpowder, there has been a need for ammunition experts.

Today, an expert in ammunition must be familiar with a variety of shells, missiles and rockets as well as many different types of explosives. He must also know how and where to store them.

The usage of 47.2 billion cubic feet of gas was topped by near record one-day sendouts to "Firm" customers of 3.15 billion cubic feet Monday and 3.14 billion cubic feet Tuesday, when icy winds sent temperatures below the freezing mark in many areas in Southern and Central California.

Similar high usage is foreseen locally as long as temperatures remain unusually low.

# 'General approval' for sewer agreement at Edison Co.

BY BOBBIE MONK

UPLAND - Councilman Harold Bailin summed up the sewer agreement situation for the Upland Council and those attending Monday evening's regular session, prior to presenting the compromise proposal for Council consideration.

Bailin said the Upland Council "generally approved the agreement with one provision" between the Upland City Council, Ontario City Council and the Chino Basin Municipal Water District. The reservation was that "if and when a multi-purpose or general purpose regional plan or district" materialized in the future and was "appropriate to take over the handling" of CBMWD and the sewers, plants, etc., that CBMWD would terminate and sell their facilities.

The councilman said a subcommittee composed of himself, Councilman A. M. "Max" Hawkins, CBMWD's Carl Masinagle and Ray Ferguson met and "that agreement was reached."

The water district apparently felt that a termination clause of that nature might jeopardize their application for federal funds, Bailin said, so it was agreed that the clause he inserted subject to removal if the application was in jeopardy.

**FOR FLOOD INSURANCE**  
CALL (714) 823-1822  
(714) 822-1141

"Tonight, Masinagle clearly said that would not have a termination provision under any circumstance," Bailin said.

Ferguson had said earlier, and also Monday afternoon that the CBMWD would be "willing to abide by the will of the people," Bailin said, so, in hope of compromise and in agreement with other facets in the plan, he made the proposal to submit the decision to the electorate in event that another regional entity appears and is capable of handling the job.

Councilman Hawkins said he was "afraid the CBMWD would not accept" the proposal.

From the audience Leon Lucas, Upland resident, asked "what other entity might come along?"

Bailin said that it was "clear" that other regional entities will probably come along to handle problems that cannot be efficiently handled on a city boundary basis. He cited as possible regional cooperation in police and fire protection. He indicated that it was not unreasonable to feel that even the CBMWD might wind up with all these functions.

"We are only asking that CBMWD give some thought that some other government may handle these functions. It seems they have little to lose except some jealous pride in power."

Clearly this organization (CBMWD) is jealous of any power it possesses."

Bailin said he felt that negotiations have come a

long way, but that Upland had "given every inch of the way. Whether this proposal will solve the problem, I don't know. At least it shows we are not afraid of the power of the people."

Jacqueline Amie of the Ontario City Council said she was "hopeful a compromise could have been reached" and was "terribly disappointed" that it had not been.

Amie said, "It's apparent from my viewpoint that Upland has no confidence in the CBMWD or the people operating it. The wording of the compromise, as I heard it, said that if, when another entity is formed, you've got to give up and give it over. Those are points of animosity."

However, Amie said he didn't feel Upland's demands were unreasonable "even though I don't know why anyone would create another district."

"I feel Chino Basin is the right agency to handle the problem. I'm an advocate of single basin management. All the towns are encroaching and drawing from the Cucamonga County Water District and CBMWD basins and there is need to control extractions and replenishment. Sewage disposal is an integral part."

"As far as Ontario is concerned, this is a terrible problem we're facing. We must get into it not in desperation, but find the best way to go. We don't want to chop off negotiations at this point. I hope both sides can come up with a reasonable workable compromise."

Amie said "I'm concerned with our problem (Upland and Ontario). We

are not only cousins, but we are in the same family. What is good for one must be good for both."

He said there were things he didn't like about the agreement "many things."

Bailin said that "Upland has retreated all the way. Maybe negotiations should be handled differently. Most of the talking has been done by Councilman Rossiter and myself. If that's a problem, I'd be happy to withdraw."

Rossiter said he felt the resolution by the Upland council was "eminently reasonable."

McCarthy said "I don't feel the Ontario Council was much swayed by any of our arguments and might enter into a separate agreement with CBMWD. Where will this leave us?"

"Leave us looking rather ridiculous," Councilman Hawkins said.

Amie said the council could withdraw from the agreement. "We have sewer water coming out of our ears and we don't know what to do with it. Sure, the agreement may be written in favor of the CBMWD people, but it's a matter of do you want to inherit the water problem, or go along with some of the defects?"

"Besides, Mr. Rossiter," Amie said, "You don't have to worry. Walker in California runs downhill. That brings it to Ontario. I wish you had it instead of us."

Rossiter said he felt the council's proposal was fair and will lead to a better agreement. Hawkins said he thought the motion "excellent, but I feel it's too late, we'll be left out and look foolish."

# Upland irked at Edison Co.

UPLAND -- Because of rock trucks, bigger poles and their request for a rate increase from the California Public Utilities Commission, the Southern California Edison Company received a light roasting at the hands of the Upland City Council Monday evening.

Councilman Bailin suggested Mountain Avenue as a consideration, but was told the committee had checked that street in their studies but had agreed that Foothill Boulevard from Grove Avenue west to Euclid Avenue.

Already a problem by

their very nature, the fact

that it is necessary for

rock trucks to travel up

Euclid and east on 16th

to the new Edison Com-

pany Padua Station, irked

the council slightly.

Councilman Ronald Rossiter asked Randy Bond, Edison representative attending the ses-

sion, why the firm could

not have contracted with

a firm closer to the con-

struction site.

Bond told the council

there would be four

"feeder" lines, (larger

poles) which would run

from the Padua station

west on 16th; from Cam-

pus to 20th Street and then

west; east on 16th to Car-

nelian and south on Cam-

pus to the Upland substi-

tation. He said this was

the "first increment" and

that there was "capacity in

Padua for future lines".

After exploring other

avenues of handling the

problem of larger poles,

and whether the city could

do much to influence the

undergrounding of the

lines, Bond pointed out

that underground 1 mile of the larger lines cost

"10 times as much" as

placing them overhead.

Bailin, who had asked

for a motion to deter-

mine whether the city

could have a greater voice

in the placement of the

poles, said he was con-

vinced the idea was "fu-

tile"

and withdrew the

motion.

The council then agreed

on undergrounding the

wires along Foothill.

According to the com-

mittee, Southern Califor-

nia Edison yearly makes

available funds for each

city to be used for un-

dergrounding of the

lines.

The subject of poles

rose when the "under-

ground committee" of the

city, which recommends

the undergrounding of

utilities, brought up the

subject of burying the

lines along Foothill Bou-

levard.

Bailin said he felt the

council's proposal was

fair and will lead to a

better agreement. Haw-

kins said he thought the

motion "excellent, but I

be left out and look fool-

ish."

## YMCA celebrates week with ecology clean-up

ONTARIO - UPLAND-NATIONAL YMCA Week is Jan. 24-31, 1971, a time when, according to YMCA President Homer Briggs, tens of thousands of Y kids throughout southern California will be helping clean up the outdoors.

Ecology is the Y's bag, and youth will be proving it by picking up litter in parks and on roadways.

In the West End, members of Hi-Y/Tri-Hi-Y clubs will be participating in this program by going into the mountains and canyons and picking up litter, according to Charles Gerlach, Hi-Y/Tri-Hi-Y council president.

Y Indian Guides have taken as their ecology project the seeding of 20 acres of burned overland in Lytle Creek Canyon. 85 boys and girls in 13 tribes took part in the project by planting a quarter of a ton of seed.

At a Y Indian Guide Officers' Induction, Jan. 23 at the YMCA, the members of participating tribes will be recognized by the United States Department of Forestry for their seeding project. Ernie Alcon and Paul Holtzclaw, Longhouse Chiefs and Ev Karges, Program Director were in charge of the project.

The features of YMCA Week will be a Youth and Government Training Session in Los Angeles, Saturday Jan. 23 in preparation for the YMCA Model Legislature to be held in Sacramento Feb.

4-7. Twenty three delegates and advisors for the Ontario - Upland YMCA will attend, including six international students according to Chuck Smith, program committee chairman.

Other features will be talks by Youth members in service clubs and schools, Y Day in the Churches, a Y's Men-Y's Mennette theatre party, and a ski trip for high school youth to June Mountain on Jan. 29-31 under the leadership of Dick Babington, executive program director.

Parents have been invited to visit younger boys and girls gym and skills program to be held at YMCA throughout the week, according to Gayle Forman and Glenn Morrison.

1970 was an outstanding year in the Ontario-Upland YMCA, according to Homer Briggs. Throughout the year 13,165 different individuals were served by the local Y. Highlights of the year were the enrolling of 5,703 members in 288 groups and clubs. These included Y Indian Guides, Junior Hi-Y and Tri-Hi-Y clubs, physical education and crafts programs for boys, girls, men and women, as well as leaders training groups, and an industrial management club and Y's men Y's Mennette clubs.

Over 1,650 boys and girls participated in a summer program and camping in addition to Y membership programs.

More than 5,424 different members of community, civic, welfare and church groups used the YMCA for meetings and programs.

New programs inaugurated during the year were a youthmobile program, which takes the program to outlying areas of the Y Service Area; a program for the handicapped and the development of a younger girls program were the new features; a special feature is a program for boys in Cucamonga, jointly sponsored by the Assistance League and the YMCA.

Hillside Happenings

### Dining out

UPLAND - A group of medical associates from Upland selected The Tower atop Occidental Center in downtown Los Angeles for a combined business and social gathering recently.

Attending the dinner event were Drs. and Mmes. F.J. Bescoby, Gilbert Turner, Alan McPherson, Donald White, H.L. Archibald and Mr. and Mrs. Hugo Bazerick all residents of Upland. Joining were Mr. and Mrs. Crandall Melia of Chino.

Since the story on Joyce Winkle and her work appeared in the Upland News Dec. 31, she has received several calls offering assistance in her work with the children at Los Olivos.

Travel posters, paints, etc., have been donated, but other items which would encourage creativity in the children, aged 5-12, would be appreciated, according to Joyce.

She and students from the Claremont Colleges have been working with the Los Olivos children since last summer. Joyce is paid by the City of Upland, but the students donated their time. The recreation department, and the new recreation director Fred Taunton, are looking into continuing the program on a year-round basis. It was due to expire this month.

ANOTHER HAPPY story is that of Joe Brown. He is the Pomoran mentioned previously in this column, who is helping the people who live in the Tijuana Dump. He has helped them obtain clothing, additional food beyond what they find in the dump, water (which must be purchased there) medication and medical aid. A recent appeal "filled the whole garage" at his home with food.

Brown has land, donated by a Mexican landowner, on which he proposes to build dwellings and a chapel. Sing Out West End is sponsoring a benefit at Chaffey High School Jan. 23 at 8 p.m. in the Gardner Spring Auditorium to help build the houses. Tickets are \$1 each and can be purchased from Brown by calling 627-5947; from his home 2366 Chancellor St., Pomona, or at the door the evening of the performance.

For an enjoyable musical evening, and to help those in need, remember Sing Out West End's Benefit, Jan. 23.

## Savings and Loans finance over half the homes in this country

by Lewis S. Eaton, Vice President  
United States Savings and Loan League

We've been committed to helping American families buy homes for over a hundred years.

Take the last three years, for example. Three years when money was tight. Three years when mortgage money seemed to be drying up.

1967: Savings and Loan Associations supplied 56% of the total mortgage loans made, providing 17.8 billion dollars.

1968: Savings and Loan Associations supplied 58% of the annual total, providing 19 billion dollars.

1969: Savings and Loan Associations made 59% of the total, providing 18.9 billion dollars for home mortgages.

And our commitment will be honored this year, too, by providing over half the home mortgage money.

We're facing the future with confidence. We have good reason.

The Savings and Loan industry has currently invested over 150 billion dollars in residential home mortgages.

And we did it by encouraging thrift. By employing the savings of our 45 million depositors—investing and re-investing in home mortgages.

Over the years, in fact, more than 90% of Savings and Loan investments have been in loans on residential properties.

When it comes to home financing, Savings and Loan Associations will continue their leadership.

Because—we're committed to it.

We might ask, "Where would our housing supply be if there were no Savings and Loan Associations?"

### Church news

#### Jehovah's Witnesses

UPLAND - Three Upland residents will address the 1400 delegates at the coming circuit convention of Jehovah's Witnesses, Jan. 29-31 at the Norco Assembly Hall in Norco. They are, David Toerper, Leslie Squires and Wallace Wright.

Topics of discussion for the three will be directly related to the theme of the three day seminar, "The Word of God is Alive" and will emphasize the Bible as God's Word rather than the word of men.

#### Radio show

This is the thought-provoking title of a 15-minute radio program scheduled for broadcast world-wide on Sunday, Jan. 24. It will be heard on KWOW at 7 a.m. and KFI at 9:15 a.m.

"How are Christian Science college students handling the DRUG question?"

According to Robert G. Walker, Committee on Publication for Southern California, the broadcast answers this question. The students themselves participate in the program.

This new radio series entitled "The Truth That Heals" and prepared under the auspices of The First Church of Christ, Scientist in Boston, Massachusetts, may be heard over Radio Stations KWOW and KFI and is sponsored locally by First Church of Christ, Scientist 1429 No. Euclid Ave., Ontario.

## Home slides replace realtors caravan

When you are listing your home for sale with a Real Estate Broker who is a member of the Ontario - Upland - Chino Board of Realtors--colored slides of both interior and exterior views may be taken after listing.

This is a new program begun experimentally within the past month by the Multiple Listing Division of the Board.

Once these slides are taken, all multiple members may see them at

their regular Wednesday breakfast meeting so that all members of the entire Multiple Division can see the property they are selling.

Eugene Bello, past president of the Board of Realtors, said this recently that the colored slides were a "new technique of providing better service to all people in the area who want to sell their homes."

He said the colored slide program replaces

the old "caravan" where real estate members of the Multiple Division visited the listed property in a bus-tour.

Instead of this, a local photographer engaged by the Board now will come to the house by appointment and take the pictures free of charge to the home owner. Individual rooms and special features will be emphasized.

Approximately 8 to 12 slides then will be shown at the Multiple Division's

Wednesday breakfast--along with a detailed commentary by the listing real estate agent.

Then the slides will be turned over to the listing real estate office and be available for individual staff meetings and for showing to prospective buyers.

Bello stated "Since the essence of a Multiple Division is cooperation among all member Brokers, the slides may be 'borrowed' by any other member office to show to a prospective buyer."

Walt Butterick of El Camino Realty, Multiple Division chairman, explained that the slides would be taken by Photographer's Revolution owned by Bill Godsmark

Dear Editor:  
Let's sneak up on a problem before it arrives.

Everyone complains of the noise, dust, muss and fuss of mini-bikes, dirt bikes and the like, but no one except Montclair and Upland has done anything about it. Montclair is in the process of constructing a mini-bike area where kids can go, stir up some dust, and be relatively safe. Upland has or is trying to locate a site.

No one wants the bikes on the street, right? No one wants them on the sidewalks, right? Why

then, if we are now in the process of driving them off "private property," don't we first make facilities for them?

Like every other sport, bike riding can be fun and a respectable sport if handled properly. I prefer this "healthy noise" to a lot of unhealthy noise I hear from youth lately.

I understand a San Bernardino county official is working on a county bike park north of Chaffey College. If that's so, hats off to him, and let's get behind him on this worthwhile project.

## Pettis bill now law

Congressman Jerry L. Pettis announced the President today signed into law the "innocent spouse" bill which grew out of a measure that he originally introduced.

This law provides that an individual will not be held liable for taxes on income that his or her spouse failed to declare on their joint income tax return.

The Congressman recalled that he introduced this bill when a constituent wrote him of her harassment by the Internal Revenue Service. Her husband, without her knowledge, had embezzled funds and refrained from declaring this as income.

## Auction set for parcels

A public auction of tax-deeded parcels of real property located in San Bernardino County will be conducted by the San Bernardino County Tax Office commencing at 9 a.m., Tuesday, Jan. 26, and continuing thereafter from day to day as necessary.

Unless sooner redeemed, a total of 346 parcels will be offered for sale to the highest bidder for CASH at time of sale. Personal checks will not be accepted. Cashier's checks, certified checks or money orders must be made payable to the County Tax Collector. Interested persons must be present in person or represented by a predetermined agent, in that deeds

will be issued in the name of the highest bidder. Bids by mail are not accepted.

The sale will be conducted in the San Bernardino County Agricultural Building, 560 Lugo Ave., San Bernardino. Printed brochures of parcels to be sold are available upon request addressed to the Tax Sales Division of the Tax Collector's Office, 172 W. Third St., San Bernardino, 924-01.

The request should contain a large self-addressed and stamped envelope and the brochures will be forwarded in order of requests until the present supply is exhausted. Maps are available for inspection in the As-

sessor's Office for purposes of locating the property.

A complete visual inspection should be made prior to sale. The monies received from such

sale are deposited with the County Treasurer and

reported to the County Auditor who apportions

the sums to the Taxing Agency wherein the property is located and in proportion to the existing tax rate.

The monies so deposited and apportioned are thereby payment in lieu of the unpaid and delinquent taxes for the years of delinquency.

**School news****Braves chosen**

By Frances McConnell, ALHS

**ALTA LOMA** - Six members of the Alta Loma High School Braves' Band were recently chosen to participate in the 1970 All Southern California High School Honor Band.

They are: John Ayala, clarinet; Pam Clayton, alto clarinet; Emily DuVall, oboe; Robert Fuentes, trumpet; Phil Howell, contrabass; Dava Selby, clarinet.

Miss DuVall and Miss Selby were also members of the All Southern California Junior High Honor Band.

These six students were chosen from 400 who auditioned. The band has a total of ninety members.

The Honor Band will rehearse at California State College, Fullerton, during the month of April.

They will perform at the Music Educators National Convention, Western Regional Convention.

**Slumber party**

**UPLAND** - Upland High School Girls' League is having their annual slumber party. The school gym will be opened at 8 p.m., Jan. 23, for the girls admittance.

A midnight snack of pizza will be served. A movie will be shown during the evening.

Sunday morning there will be milk and donuts for everyone. Tickets are being sold in the student store for \$1.00 and \$1.50.

**Jr.-Sr. Prom**

By JULIE SAVAGE ALHS

**ALTA LOMA** - The Junior Class at Alta Loma High School is diligently getting ready for their big event of the year, the Junior-Senior Prom.

To raise funds for this, the Junior Class officers, Mike Allen, Emily DuVall, Jackie Stawicki, and Stephanie Wywick are planning an after-game stag dance on January 22.

The dance will be held in the school's cafeteria immediately following the basketball game against Royal Oak, and will end at 11:30 p.m. The band playing at the dance will be "Siddhartha".

**Candy sale ALHS**

**ALTA LOMA** - The freshman class of Alta Loma High School recently awarded cash prizes to the winners of its annual candy sale.

The sale was held to begin a treasury for the class of 1975. It is their first money-raising project.

Recipient of first prize was Cheryl Sankoly who sold \$123 worth of candy. She will receive \$10. Second prize of \$5 went to Angela Holmes who sold \$46.

Free tickets to the stag dance sponsored by the freshmen March 5 will be given to the third, fourth and fifth prize winners.

The sale grossed over \$250 for the class treasury.

**Baldy View**

**UPLAND** - Baldy View PTA has planned a "dime-a-dip" dinner for the general public today, Jan. 21.

Hot dishes, salads, vegetables, punch and coffee, and desserts will be sold, each for 10 cents a serving.

During the dinner there will be parent talent and the "Sing Out West End" group to entertain.

The dinner will be held in the multi-purpose room at the school, 979 West 11th Street, from 5 p.m. until 7:30 p.m. PTA president, Mrs. Howard Belliston, suggests all come to this fund raising event to "enjoy ourselves and to be 'generously' hungry."

The money earned will be used for the welfare of the students at Baldy View School.

## Area produces semi-finalists for foreign exchange program

**UPLAND** - Four local semi-finalists are under consideration, according to the Upland-Alta Loma American Field Service (AFS) Americans Abroad Committee for the 1971 foreign exchange program.

Donna Fisher, daughter of Mr. and Mrs. Milton Fisher, 8553 Red Hill Country Club Drive, Cucamonga, is a senior at Upland High School. She has hoped to be an exchange student since grammar school and has prepared herself with six years of French and three years of Latin. Her school activities include

the Future Homemakers of America, AFS, "S" Club and the French Club.

Upland High junior Mark Schneider is eligible for either the summer or the school year program. He is the son of Mr. and Mrs. Fred Schneider, 441 West Arrow, Upland. He has been on the school's swimming team and has played water polo for two years. He has taken three years of Latin and two years of Spanish.

Laura Anderson, Alta Loma High School junior, lives with her parents, Mr. and Mrs. Fred Longson, 8627 Orange St., Alta Loma. She has had 2 1/2 years of French. Some of her club activities include AFS, Hiking Club, Pep Club and Ecology Action Group.

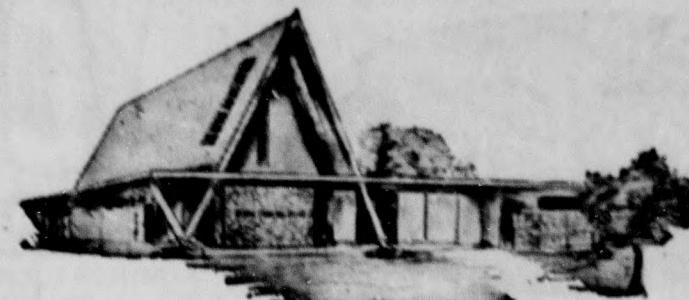

Catalina Martinez, daughter of Mr. and Mrs. Dan Martinez, 8569 Sierra Madre, Cucamonga, is a senior at Alta Loma High School. She has taken three years of Spanish, and is active in a cappella Choir, "S" Club and the Pep Council. Her hobbies include sewing, reading and bicycling.

All applicants and their families were interviewed by the AFS Committee and club members. Former AFS students also interview the candidates to check for the qualities needed in a student going abroad.

The final selection of the semi-finalists is made by the Americans Abroad Committee.

## Church group plans meeting

Norco, near Corona, is the home of the new 2,000-seat Assembly Hall designed and built by Jehovah's witnesses especially for their three-day, semi-annual, Circuit Assemblies. Nine circuits of 18 to 20 congregations each have been arranged in "A" and "B" parts to make full use of the building.

Congregations of California Circuit #38-B, from western San Ber-

nardino and Riverside counties, will meet February 5-7, according to Mr. Leonard Clark, the spokesman for the 125 delegates from the Cucamonga area.

The main teaching methods employed by the group during these three-day meetings are Bible talks accompanied by staged dramatizations.

With this in mind the building was specially designed to enable lighting

to be controlled independently on different areas of the stage as the dramas are presented. Even the microphones used are operated by remote control. Each area of the building is arranged so all attending may hear the program clearly.

To prevent traffic congestion several acres of paved parking surround the building with easy access. This parking area and the structural steel

of the building were the only items of construction not done by Jehovah's witnesses.

Beginning this month, the world headquarters of the organization in New York has arranged to conduct at this hall an advanced Bible training course.

Some persons call the convention center building a "giant Kingdom Hall." When asked why Jehovah's witnesses call their meeting places by this name, Mr. J. D. Wengert, District Minister from New York, and a featured speaker at the February gathering, said, "This name puts the emphasis on the main purpose of Jehovah's witnesses: to advertise God's kingdom as the hope of the world."

## Money and marriage weekend conference

Money and marriage often go together like a horseless carriage.

Some unusual techniques for successfully mix the two will be offered couples during a weekend workshop presented by UCLA Extension, Friday, January 29, 5:30 p.m. through Sunday, January 31, noon, at the University's Residential Conference Center at Lake Arrowhead.

Titled "The Art of Managing Money and Marriage," the workshop will be conducted by Dr. Irving Pfeffer, professor of insurance and finance at the UCLA Graduate School, and Marilyn Shaw, consultant in environment-

al relationships and human resources and a teacher for University Extension.

The program will combine an exploration of personal values and the management of financial and personal resources for couples interested in enhancing their security and satisfaction, according to the two leaders.

Mrs. Shaw is also an art educator, graphic artist, photographer and lecturer to diverse groups. Her professional credits as a photographer include an exhibition at the Los Angeles County Museum of Art and a recent European assignment to document recording sessions in St. Marks Cathedral, Venice, and other historically im-

portant sites of musical activity.

Dr. Pfeffer is the author of some 50 publications on the art of managing money, including a forthcoming book titled "Estate Planning for Managers." He is also a contributor on the subject to World Book Encyclopedia and the Encyclopedia Britannica.

Fee for the weekend program, including room and board, is \$175 a couple. Further information is available by writing P.O. Box 24902, Daytime Programs, University Extension, UCLA, Los Angeles, 90024, or telephone (213) 825-2301.

## Children's concert features light show

The West End Symphony in cooperation with the West End Elementary Schools will present a "1812 Overture." The remainder will include "Farandole" by Georges Bizet and "The Hungarian March" by Hector Berlioz.

This program has been specially selected for 4th to 8th grade students. One feature will be a light show, similar to light shows geared to rock music; only this one will be done to the symphonic melodies of the "Unanswered Question" by Charles Ives. The finale of the concert will

combine the West End Symphony and the Chaffey High School in a presentation of the "1812 Overture." The remainder will include "Farandole" by Georges Bizet and "The Hungarian March" by Hector Berlioz.

Carol Schaefer, WES Association president, recalled that over 2,000 children attended the concert last year. The children were driven to the auditorium by West End PTA members and other parents.

Tickets at 75¢ per child will be available at the schools.

## Space facts on Apollo 14

When the aircraft carrier USS New Orleans recovers the crew of Apollo 14 in the mid-Pacific on Feb. 9, it will be the Navy's 24th recovery of a U.S. astronaut team. Alan Shepard, America's first man in space, will make his second venture into the wild blue yonder when he goes up in Apollo 14. It will be the first space flight for his crewmen, Ed Mitchell and Stu Roosa. The liftoff is now scheduled for 3:23 p.m. EST, Jan. 31, 1971.

Apollo 14 will be launched from Cape Kennedy with the mighty Saturn V, the world's most powerful rocket. Its first stage, propelled by five engines, generates 7,500,000 pounds of thrust. These kerosene burning engines share the weight lifting championship at 1,500,000 pounds each.

The lunar landing site for this launch, Fra Mauro, is the one previously selected for the aborted Apollo 13 flight which didn't make it to the Moon's surface. NASA scientists figure this location promises great scientific return. This hilly upland region is 50 miles north of the Fra Mauro crater.

The crew plans to bring back lunar materials which scientists believe were tossed up from deep inside the Moon when a smaller moon or large meteorite impacted the area four to five billion years ago.

If all goes well with Apollo 14, Alan Shepard should set foot on the Moon at 9:10 a.m. EST, Feb. 5, and Ed Mitchell a half hour later for about a four to five hour stay on the lunar surface, and repeat this performance the following morning.

This lunar landing will bring to six the men from planet Earth who have landed on the Moon, all Americans. The first two were Armstrong and Aldrin, the second pair was Conrad and Bean.

The first two teams of lunar explorers had to tote their own equipment around. The next team will have the aid of a two-wheel cart with the unlikely technical name of Modularized Equipment Transporter (MET). Naturally, the boys at the Manned Spacecraft Center couldn't stand this for very long, so they have come up with their own name. Of course, it's the Shepard Rickshaw.

### Series will feature speaker

The third in a series of five lectures sponsored by The Academy of Pitzer College will be held Friday, Jan. 22, at noon.

"The New Marriage --

Chaos or Promise?" will be presented by Dr. Cynthia Siebel, Assistant Professor of Psychology, her husband, Edmund, and Mr. and Mrs. George Warfel. Mrs. Warfel is the former Martha Noyes, Pitzer College alumna. The lecture will follow a luncheon in the Founders Room of McConnell Center.

A fee for the luncheon will be charged to non-members of The Academy, with members admitted at a reduced fee.

Included in the presentation will be an analysis of questionnaires on attitudes toward marriage, which were completed by those attending the previous Academy lecture.

For information and reservations for the lecture and membership in The Academy, call Miss Mary Ann Callan, Program Coordinator, Pitzer College, (714) 626-8511, ext. 3145.

## Basketball clinic includes girls

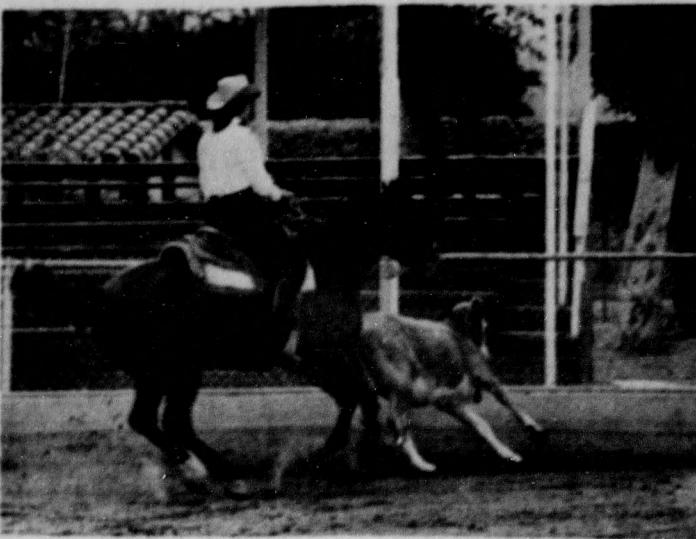

On January 23, from 2-4 p.m., the Pomona Valley YMCA will sponsor its first annual "Buddy" Basketball Clinic for girls and boys, 7 through 16 years of age.

The clinic will be conducted by Cal Poly's Head Basketball Coach, Bob Stull, along with some of his varsity players. Gail Goodrich, of the L.A. Lakers, will be present to assist with the clinic and to sign autographs.

Coach Stull is one of the winningest coaches in college basketball and has compiled a record of 315 wins during his twenty-three years as the Bronco head coach. His style of play features a high scoring offense which the fans like, but not the opposing coach.

He uses various forms of defense, but primarily likes to go with the one that best opposes the other team's offense. Coach Stull graduated from Whittier College in 1941 and received his M.A. in 1947 at the same institution. Before coming to Cal Poly, Stull has coached at Valencia High School and Whittier College.

Gail Goodrich is a new addition to the Laker

### Get a little dogie

Barbara Biddinger shows the Arabian horse's ability as a reigning cow horse. She will appear in the January 24 Arabian Horse show to be held at Cal Poly at 2 and 3:30 p.m. Admission is 75 cents for adults and 25 cents for children under 12. The public is invited to the program.

### Arabian's star in Cal Poly show

A line of champions will be exhibited during an Arabian Exhibition at California State Polytechnic College, Kellogg-Voorhis, Pomona, Sunday, Jan. 24. Actress Sue Ann Langdon, owner of the Cal Poly bred, champion mare Suja will be a special show guest. And, leading the list of equine champions will be the college's former liberty horse Poly Royal who will be ridden by actor-singer John Davidson his present owner.

Cal Poly will show its six champions; Kello-Gwalar, crowned champion stallion at the Diamond Bar horse show in November; Tezadi, halter and several times English pleasure champion and Pacific English pleasure champion;

Coulyfa, five times champion mare, with her new foal; Bir-Royal, western pleasure champion; Hytan, former parkhorse champion; and, Bircouri, Pacific Slope costume champion. The Jan. 24 shows, like all Cal Poly Sunday Arabian horse shows, held in October and November and January through May, will take place at 2 and 3:30 p.m.

The weekly horse shows were established by the late W. K. Kellogg to promote interest in the Arabian breed and to educate the public about the Arabian's versatility, beauty and intelligence. Sunday programs feature the Arabians under English tack and western stock saddle and demonstrate their qualities as three-gaited horses and as jumpers and dressage horses.

Show features include English and western pleasure, liberty, native costume, comedy, trick, jumping, and working cow horse events.

Before and after the hour-long performances, visitors may tour the period stables and see the displays of champion ribbons and silver trophies continually won by the Cal Poly Arabians. Visitors may also view mementos and photographs from early Hollywood movie-making days when Kellogg Arabians were used in films of daring and adventure and stars such as Clara Bow, Gary Cooper and Rudolph Valentino were numbered among their admirers.

Admission is 75 cents for adults, 25 cents for children under 12-years-old.

### 'Ramona' dates set

Dorothy Bailey Vosburg will be appearing for her eleventh season in the title role of the lovely part-Indian heroine of the play based on the novel by Helen Hunt Jackson, it was announced by Willard Councilman, General Manager of the non-profit community enterprise that produces the outdoor drama each spring in the natural Bowl located in the foothills of the San Jacinto mountains near Hemet and San Jacinto.

Appearing opposite Miss Vosburg and playing the role of the ill-starred Indian Chieftain, "Alessandro," for his fifth consecutive year, will be singer Frank Sorell who has won the hearts of audiences each time he appeared, both for his portrayal of the role as well as for his beautiful bass-baritone voice.

Auditions are to be held for all other parts in the show on Saturday, Feb. 6, starting at approximately 9 a.m., and continuing on Sunday if necessary. These roles are filled by, and limited to, local residents only, who vie each year for the coveted, though unpaid, parts.

Dates for the 1971 season are April 17, 18; April 24, 25; and May 1 and 2, all at 2:30 p.m. Tickets for the production, which has been sold out for nearly every performance for the last 7 or 8 years, may be obtained in the usual manner by mail - P.O. Box 755, Hemet, 92343, or by phone (714) 658-3111.

## Citizens For Justice committee formed

The national Board of Directors of Citizens for Justice with Order added Louis B. Lundborg, Chairman of the Board, Bank of America National Trust and Savings Association, H. Bruce Palmer, former president of the Conference Board, and Gordon B. Thomas, President, U.S. Jaycees. The Board authorized the following 4-point program for national citizens' mobilization to combat crime, its causes and effects:

--To create a national awareness, through sound educational processes, of the impact of current crime upon the lives and economic welfare of our citizens;

--To direct citizen efforts into constructive and responsible community projects which will have as their goals not only the prevention of crime but also the strengthening, modernizing, and reform of the overburdened governmental institutions charged with the responsibility of administering our system of criminal justice;

--To provide a mechanism through which the effectiveness of the programs of both professional resource organizations and lay action groups can be multiplied by affording broadened access to both policy research and tested community planning, and by assembling, adapting, distributing, and, when necessary, funding existing and new organizational programs and projects;

--To raise funds to implement these purposes in the magnitude required for the urgency and complexity of the task.

The Board authorized transfer of CJO's executive headquarters from New York to Los Angeles, with auxiliary offices in New York.

With approval from 20 plus Governors and scores of Mayors of the major cities of America, the CJO Board confirmed the intent of the private sector to assist federal and state and local governments to reduce the impact of crime. President Nixon's congratulatory telegram to Bruce Palmer on CJO was read into the record.

In addition, the Board confirmed the appointments of Samuel Ishmael, former General Counsel of the U.S. Jaycees, as Executive Director of CJO West, with headquarters in Los Angeles, and W. Howard Chase, as Executive Director of CJO East, in New York.

The Board also authorized a nationwide drive for citizen and business mobilization against crime, its causes and effects.

At its inception, CJO's objectives were endorsed by the presidents of the American Bar Association, International Association of Chiefs of Police, American Institute of Judicature, National Bar Association, National Association of Citizens' Crime Commissions, National Urban League, General Federation of Women's Clubs, U.S. Jaycees, and scores of other professional and lay organizations.

## Taxpayers' forum

This column of questions and answers on federal tax matters is provided by the local office of the U.S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by taxpayers.

(Q) The IRS says it will figure the tax for more people this year. Who can take advantage of the offer?

(A) Up to 30 million taxpayers may have IRS compute their tax. To qualify, income should be less than \$20,000 and consist only of wages or salaries, tips, dividends, interest, pensions or annuities. The taxpayer must also take the standard deduction.

Previously, IRS could only compute the tax for those with less than \$5,000 of income, primarily from salaries and wages. These limits disqualified many low and middle income taxpayers as well as retirees living on pensions or annuities.

If you want IRS to compute your tax, just follow the instructions for entries on the return and mail it, with attachments, to the IRS Service Center for your area.

Besides computing the tax, the IRS will also compute retirement income credit for those entitled to it. This computation has proven confusing to many taxpayers in the past.

(Q) When can I expect to get my W-2?

(A) Employers are required to issue W-2 statements

on 1970 wages paid and taxes withheld to their present employees by the end of January. Since this falls on a Sunday, the deadline for employers to issue these statements is February 1.

Anyone who left a job before the end of the year should have received a W-2 within 30 days after his last pay check.

(Q) Where can I get information on the changes that will affect my 1970 return?

(A) A summary of the major changes in the law are listed on the cover of the 1970 income tax packages most taxpayers will receive in the mail. Information on how to handle these changes are explained in the instructions.

Additional information on the tax law changes as well as other aspects of tax law may be found in Your Federal Income Tax. This publication may be obtained from most IRS offices for 75¢.

(Q) My husband is over in Vietnam in the army. What should I do about our tax return?

(A) You are not required to file a return until 180 days after he leaves Vietnam. If you want to file earlier because you are expecting a refund, indicate in the space where his signature should go that he is serving in a combat zone.

(Q) Does the income tax surcharge apply to all money earned in 1970?

(A) Yes. The income tax surcharge rate for 1970 is 2 1/2 percent.

(Q) My teenage son earned enough money in 1970 to owe tax. Does that mean I will lose my exemption for him?

(A) Not necessarily. As long as your son is a full-time student at least five months of the year or was under 19 at year end, the amount of his earnings will not affect his dependency status. However, the other dependency tests, support for instance, must be met.

ORDINANCE NO. 309  
AN ORDINANCE OF THE CITY COUNCIL OF SAN DIMAS AMENDING THE MUNICIPAL CODE BY ADDING CHAPTER 19A THERETO REGULATING THE USE OF PREMISES BY DECLARING CERTAIN USES THEREOF TO BE A PUBLIC NUISANCE.

THE CITY COUNCIL OF THE CITY OF SAN DIMAS DOES ORDAIN AS FOLLOWS:

SECTION 1. Chapter 19A is hereby added to Title III of the San Dimas Municipal Code to read as follows:

CHAPTER 19A

PUBLIC NUISANCE: PREMISES

Section 19A-1. Maintenance of Property, Nuisances. No person shall maintain any premises so as to constitute a public nuisance. It is hereby declared a public nuisance for any person owning, leasing, occupying or having charge of any premises to:

(1) Maintain such premises in a condition which is adverse or detrimental to the public peace, health, safety or general welfare; or

(2) Maintain such premises so as to permit the same to become so defective, unsightly, dangerous or in a condition of deterioration or disrepair so that the same will, or may, cause harm to persons, or which will materially impair the value of, or otherwise be materially detrimental to, properties or improvements located in the vicinity of such premises.

"Premises", as used herein, shall mean and include real property, vegetation, landscaping, plantings, trees, bushes, fences, buildings, structures, improvements, fixtures and the exterior storage of personal property, equipment, or supplies.

Section 19A-2. Declaration of Nuisance. Whenever the Building Official finds that any premises are being maintained contrary to the provisions of Section 19A-1, the Council shall, by resolution, declare its intent to conduct a public hearing to determine whether the same constitutes a public nuisance; said Resolution shall indicate the Council's intent to commence abatement proceedings, as herein provided, and shall describe the premises involved by the street address or other description as is reasonably necessary to identify the same.

Section 19A-3. Abatement. All or any part of any premises, found by the Council to constitute a public nuisance, which is ordered to be abated, shall be abated by rehabilitation, demolition or repair, pursuant to the procedures set forth in this Code.

Section 19A-4. Notice of Hearing to Abate. Within 15 days after the passage of the Resolution referred to in Section 19A-3, the Building Official shall cause to be conspicuously posted upon the premises set forth in this Code.

(1) A certified copy of such Resolution, and

(2) At least two notices of the time and place of hearing before the Council, which said notices shall be entitled: "NOTICE OF HEARING TO ABATE NUISANCE" in letters of not less than one inch in height and shall be substantially in the following form:

"Notice is hereby given that on the day of

, 197 , the City Council of the City of San Dimas adopted a resolution declaring its intention to conduct a public hearing to determine whether those certain (buildings), (structures), (vegetation), (equipment), (supplies), (trees), (bushes), (fences), (etc.), located upon that certain real property, situated in the City of San Dimas, State of California, known and designated as (street address), in said City, more particularly described as (description), constitutes a public nuisance which must be abated by the rehabilitation, repair, removal or demolition of said (buildings) (structures) (supplies), (etc.). If said (buildings) (structures) (supplies), (etc.) in whole or in part, are found to constitute a nuisance, and if not abated, the same will be abated by the City, in which case, the cost of such abatement will be assessed upon and against the land on which said (buildings) (structures) (supplies) (etc.) (is) (are) located and that the cost thereof will be constituted a lien upon such land until paid. Said matter will be processed in accordance with Chapter 19A of the San Dimas Municipal Code. Said nuisance consists of the following: (description).

All persons having any interest in said matter are hereby advised to attend a meeting of the City Council of the City of San Dimas to be held in the City Hall, located at 245 East Bonita Avenue, San Dimas, California, on the day of , 197 , at the hour of (a.m.) (p.m.) of said day, when evidence relating to said matter will be heard and given due consideration.

DATED: This day of

, 197 .

BY ORDER OF THE CITY COUNCIL

City Clerk"

Section 19A-5. Posting and Serving Notice. The Building Official shall cause to be served upon the owner of each of the affected (buildings) (structures) (supplies) (etc.) a copy of the notice referred to in Section 19A-4.

Said notices shall be posted and served at least 10 days be-

fore the time fixed for the hearing before the Council. Proof of posting and service of such notices shall be made by affidavits or declarations which shall be placed in the City file.

Section 19A-6. Form of proper Service of Notice. Service of said notice shall be by depositing a copy of said notice in the course of transmission of the United States Postal Service, enclosed in a sealed envelope, with the postage thereon fully prepaid. Said envelope shall be registered or certified, and shall be addressed to said owner at the last known address of said owner. The service is completed at the time of its deposit in the United States Postal Service.

"Owner" as used herein, shall mean any person having or claiming to have, any legal or equitable interest in or to the fee relating to said (buildings) (structures) (supplies) (etc.) as disclosed by title search to be conducted under the supervision of the City Attorney, using an acceptable title company.

Section 19A-7. Hearing by Council. At the time stated in the notices, the Council shall hear and consider all relevant evidence, including, but not limited to, testimony from owners, witnesses and parties interested, and staff reports, related to said matter. Said hearing may be continued from time to time. Upon the conclusion of said hearing, the Council shall, based upon said evidence, determine whether the (buildings) (structures) (supplies) (etc.) as maintained, constitutes a nuisance. If it is determined that the same does constitute a nuisance, the Council shall order the same abated within a reasonable time. Such time shall be determined by the Council and set forth in its resolution of abatement.

The City Council's decision shall be by resolution, which shall contain the findings of the Council upon which such determination is based. If said nuisance is not abated within the time permitted by the Council, the Building Official is hereby expressly authorized to enter upon the premises for the purpose of abating the same as herein-after provided.

Section 19A-8. Service on Owner of Council Resolution. A copy of said resolution ordering the abatement of said nuisance shall be served upon the owner or other persons having an interest therein of the affected (buildings) (structures) (supplies) (etc.) in accordance with the provisions of Section 19A-6 and shall contain a description of the needed corrections, removals or repairs necessary to comply with the abatement order. Any property owner shall have the right to have the nuisance as declared, abated, provided the same is completed prior to the expiration of the period of time set forth in said Resolution, or if no time is so specified, within not to exceed 60 days after the date of adoption of such Resolution. The time set for abatement, upon good cause shown, may be extended for a reasonable time, by the Council; provided, that if such nuisance is not abated within such time, the Building Official shall, by City forces or private contract, cause the same to be abated.

Section 19A-9. Record of Cost for Abatement. The Building Official shall keep an accounting of the cost, including the incidental expenses, of abatement of such nuisance for each separate lot, or parcel of land, where the abatement work has been done and shall render an itemized report in writing to the City Council showing the cost of abatement, including salvage value, if any; provided, that before said report is submitted to the City Council for confirmation, a copy of the same shall be posted for at least 10 days upon the affected premises, together with a notice of the time when said report shall be submitted to the City Council for confirmation. A copy of said report and notice shall be served upon the owner of said property, in accordance with the provisions of Section 19A-4, at least 10 days prior to the time set for Council action regarding confirmation; proof of such posting and service shall be made by affidavit or declaration placed in the City file. The term "incidental expenses" shall include, but not be limited to, the actual expenses and costs of the City in the preparation of notices, specifications and contracts, and in inspecting the work, and the costs of printing and mailings required hereunder. Reasonable attorney's fees incurred by the City in the enforcement of any such order shall be deemed an incidental expense.

Section 19A-10. Report and Proceedings. At the time and place fixed for receiving and considering said report, the City Council shall hear and pass upon the report of the Building Official, together with any objections or protests, submitted by any of the persons liable to be assessed for the cost of abating such nuisance. Thereupon, the City Council may make such revision, correction or modification to said report as it may deem just, after which, by resolution, the report, as submitted, or as revised, corrected or modified, shall be confirmed. The hearing may be continued from time to time.

Section 19A-11. Assessment of Costs Against Property, Lien. The amount of the cost for abatement of such nuisance upon any lot or parcel of land, including incidental expenses, as confirmed by the City Council, shall constitute a special assessment against the respective lot or parcel of land to which it relates, and after its recording, as thus made and confirmed, shall constitute a lien on said property in the amount of such assessment. After the confirmation of said report, a copy thereof shall be transmitted to the Assessor and Tax Collector for the City, whereupon it shall be the duty of said Assessor and Tax Collector to add the amounts of such assessments or assessments, to the next regular bill of taxes levied against the said respective lots and parcels of land for municipal purposes, and thereafter said amounts shall be collected at the same time and in the same manner as ordinary municipal taxes are collected, and shall be subject to the same penalties and the same procedure under foreclosure and sale in case of delinquency as provided for ordinary municipal taxes.

Section 19A-12. Alternates. Nothing in this Section shall be deemed to prevent the City Council from ordering the City Attorney to commence a civil

action to abate a nuisance as an alternative to or in conjunction with, the proceedings herein set forth.

Section 19A-13. Assessment of Costs Against Property, Lien. The amount of the cost for abatement of such nuisance upon any lot or parcel of land, including incidental expenses, as confirmed by the City Council, shall constitute a special assessment against the respective lot or parcel of land to which it relates, and after its recording, as thus made and confirmed, shall constitute a lien on said property in the amount of such assessment. After the confirmation of said report, a copy thereof shall be transmitted to the Assessor and Tax Collector for the City, whereupon it shall be the duty of said Assessor and Tax Collector to add the amounts of such assessments or assessments, to the next regular bill of taxes levied against the said respective lots and parcels of land for municipal purposes, and thereafter said amounts shall be collected at the same time and in the same manner as ordinary municipal taxes.
